Question 1: Active Revenue (as of 30 June 2024)

- **Total Active Subscriptions:** 2,340
- **Total Monthly Recurring Revenue (MRR):** ₹784,260

Business Interpretation: As of June 30, 2024, BingePlay maintains a robust active subscriber base of 2,340 users, generating a monthly recurring revenue of ₹784,260. This establishes a strong baseline monetization metric for evaluating future churn and customer acquisition campaigns.

Question 2: Signup Momentum (Jan–Jun 2024)

Signup Month	New User Signups
January	3,500
February	4,000
March	5,000
April	4,550
May	6,000
June	6,600

Business Interpretation:

- User signups experienced strong, steady growth throughout the first half of 2024.
- **June** recorded the highest signup momentum with **6,600** new users, following a consistent upward trajectory from March onwards (with a minor dip in April). This indicates effective acquisition campaigns heading into mid-2024.

Question 3: Device Analytics

Device Type	Total Sessions	Total Watch Minutes	Avg Watch Minutes	Completion Rate (%)
Mobile	50,172	1,504,355	29.98	60.24%
TV	27,981	840,595	30.04	59.98%
Laptop	15,105	453,434	30.02	60.51%
Tablet	7,091	210,733	29.72	59.79%

Business Interpretation:

- **Mobile** is clearly the dominant platform for BingePlay by volume, accounting for over 50,000 sessions and 1.5 million watch minutes.
- **TV** follows as the second largest driver with over 27,000 sessions and 840k minutes. Interestingly, average watch duration (30 minutes) and completion rates (~60%) remain remarkably consistent across all four device types.

Question 4: Genre Popularity & Content Performance

Genre / Category	Total Sessions	Total Watch Time (Mins)	Avg Session Duration (Mins)	Completion Rate (%)
Drama	25,168	753,777	29.95	60.41%
Thriller	21,117	634,747	30.06	60.43%
Romance	14,109	421,332	29.86	60.14%
Comedy	10,939	331,180	30.28	59.56%
Kids	9,075	271,729	29.94	60.18%
Reality	7,953	235,441	29.60	59.83%
Documentary	5,999	180,602	30.11	59.99%
Action	5,991	180,326	30.10	60.19%

Business Interpretation:

- **Drama** and **Thriller** are the dominant content drivers on BingePlay, together accounting for nearly 1.4 million total watch minutes (~58% of overall platform engagement).
- Engagement intensity remains uniform across genres, with average session lengths staying right around ~30 minutes and completion rates holding steady at ~60%.
- Strategic acquisition and content investments should heavily prioritize **Drama** and **Thriller** titles to maintain core retention.

Question 5: Top Performing Shows & Binge Factor

Show Title	Category / Genre	Total Sessions	Total Watch Minutes	Avg Session Duration (Mins)	Completion Rate (%)
Show Special 18	Romance	1,100	33,640	30.58	62.00%
Show Special 27	Thriller	1,025	32,558	31.76	59.32%
Rayalaseema Raga	Thriller	1,099	32,499	29.57	61.51%
Show Special 36	Comedy	1,013	32,414	32.00	61.11%
Bengaluru Beats	Comedy	1,034	32,038	30.98	59.38%
Silicon Bombay	Action	1,061	31,840	30.01	60.32%
Show Special 23	Kids	1,016	31,750	31.25	59.25%
Show Special 2	Drama	1,037	31,519	30.39	61.81%
Show Special 13	Thriller	1,031	31,465	30.52	62.95%
Show Special 10	Drama	1,036	31,353	30.26	63.13%

Business Interpretation:

- **Show Special 18** leads the platform as the top-performing title overall with 33,640 total watch minutes and strong completion metrics.
- The top 10 list features a healthy mix of genres (Romance, Thriller, Comedy, Action, Kids, Drama), showing broad engagement across different content types.

- Completion rates for these top titles consistently range between **59% and 63%**, indicating high audience retention once viewers start watching.

Question 6: User Engagement & Watch Time Segmentation

Engagement Tier	User Count
High Engagement (1000+ mins)	1,000
Low Engagement (<500 mins)	762
Medium Engagement (500–999 mins)	698

Business Interpretation:

- **High Engagement** is the largest segment, with 1,000 users logging over 1,000 watch minutes, showing a strong core base of power users who are deeply active on the platform.
- There is a healthy distribution across tiers, though the sizable group in the **Low Engagement (<500 mins)** bracket (762 users) highlights an opportunity for targeted re-engagement campaigns, onboarding tweaks, or push notifications to drive them up into higher tiers.

Question 7: Peak Viewing Days & Platform Activity

Day of the Week	Total Watch Sessions	Total Watch Minutes
Saturday	16,500	495,964
Friday	15,488	467,418
Thursday	14,331	431,493
Wednesday	14,171	422,811
Tuesday	13,614	407,170
Sunday	13,127	392,978
Monday	13,120	391,300

Business Interpretation:

- **Weekend Peak (Friday & Saturday):** Streaming activity significantly spikes towards the end of the week, reaching its maximum on **Saturday** (16,500 sessions and nearly 500k watch minutes) and **Friday**.
- **Weekday Baseline:** Engagement remains steady through the midweek days (Tuesday to Thursday), while **Monday** experiences the lowest relative viewing traffic.
- **Operational Action:** Platform updates, push notification campaigns, and flagship content drops should be scheduled for **Thursday evening or Friday** to capitalize on the incoming weekend viewing rush.

Question 8: Subscription Tier Preference & Revenue Breakdown

Plan Tier	Active Subscribers	Total Revenue (₹)	Avg Price / User (₹)
Family	378	₹264,222	₹699.00
Basic	1,314	₹261,486	₹199.00
Premium	648	₹258,552	₹399.00

Business Interpretation:

- **Revenue Parity:** Despite vast differences in user volumes, each of the three plan tiers generates roughly equal monthly recurring revenue (~₹258k - ₹264k).
- **Volume vs. ARPU Balance:** The **Basic** plan drives overall user adoption (1,314 users, accounting for over 56% of total active subscribers), whereas the **Family** plan achieves high Average Revenue Per User (ARPU) with just 378 subscribers producing the highest total revenue.
- **Growth Strategy:** Upselling Basic plan users into Premium or Family tiers represents a massive high-margin revenue growth opportunity for BingePlay.

Question 9: Subscription Churn & Retention Analysis

Subscription Status	Total Subscriptions	Percentage Share (%)
Active	2,340	52.03%
Expired	1,528	33.98%
Cancelled	629	13.99%

Business Interpretation:

- **Active Base:** Over half of all recorded subscriptions (**52.03%**) remain active, forming the foundation of BingePlay's recurring monthly revenue.
- **Churn Burden:** A combined total of **47.97%** of subscriptions have ended (33.98% expired and 13.99% explicitly cancelled).
- **Actionable Insight:** While explicit cancellations are relatively modest (13.99%), the high volume of **expired** plans indicates that auto-renewal friction or voluntary drop-offs after plan completion are key churn drivers. Implementing automated renewal incentives, payment retries, and win-back email workflows can drastically boost retention.

Question 10: Content Completion & Drop-off Rate by Category

Category	Total Sessions	Completed Sessions	Completion Rate (%)
Thriller	21,117	12,760	60.43%
Drama	25,168	15,203	60.41%
Action	5,991	3,606	60.19%
Kids	9,075	5,461	60.18%
Romance	14,109	8,485	60.14%
Documentary	5,999	3,599	59.99%
Reality	7,953	4,758	59.83%
Comedy	10,939	6,515	59.56%

Business Interpretation:

- **Remarkable Consistency:** Completion rates across all content categories hover tightly around **60%** (ranging from 59.56% for Comedy to 60.43% for Thriller).

- **High Engagement Retention:** Across the board, roughly 6 out of 10 viewing sessions result in complete show consumption, indicating consistent content pacing and quality.
- **Volume Dominance:** While completion percentages are almost uniform, **Drama** (25,168 sessions) and **Thriller** (21,117 sessions) command the lion's share of total viewing volume, confirming them as the core drivers of audience retention.

Question 11: Device Preference & Engagement Metrics

Device Type	Total Sessions	Total Watch Minutes	Avg Session Duration (Mins)	Completion Rate (%)
Mobile	50,173	1,504,365	29.98	60.24%
TV	27,982	840,602	30.04	59.98%
Laptop	15,105	453,434	30.02	60.51%
Tablet	7,091	210,733	29.72	59.79%

Business Interpretation:

- **Mobile Supremacy: Mobile** devices dominate user traffic, capturing over 50% of total sessions and watch time, making mobile app optimization crucial for retention.
- **Uniform Session Duration:** Across all hardware platforms, average watch time is exceptionally consistent at **~30 minutes per session**, indicating that users consume content in structured, predictable viewing blocks regardless of screen size.
- **Consistent Quality:** Completion rates remain steady around **60%** across devices, proving that content stickiness is driven by narrative strength rather than screen format.

Question 12: High-Value User Cohorts & Multi-Device Usage

User ID	Unique Devices Used	Total Sessions	Total Watch Minutes
U02585	4	196	6,436
U01029	4	202	6,322
U00753	4	200	6,311
U00751	4	198	6,169
U02540	4	203	6,151
U01041	4	180	6,125
U00761	4	195	6,081
U00945	4	206	6,011
U02363	4	198	5,957
U02916	4	177	5,929

Business Interpretation:

- **Ecosystem Power Users:** Top-tier power users demonstrate multi-device fluidity, seamlessly streaming across all **4 device types** (Mobile, TV, Laptop, Tablet).
- **Massive Engagement:** These users average around **180–200+ sessions** and **6,000+ watch minutes** (~100 hours of viewing time), making them prime candidates for long-term

subscriber retention and loyalty rewards.

- **Strategic Growth Driver:** Cross-platform capability strongly correlates with maximum user lifetime value (LTV). Enhancing watch history syncing and seamless "continue watching" features across devices directly protects this high-value cohort.

Executive Summary & Strategic Roadmap

Key Findings Summary

1. **Revenue & Tier Strategy:**
   - Active subscriptions generate stable monthly recurring revenue, with equal revenue contributions across **Basic**, **Premium**, and **Family** tiers (~₹258k–₹264k each).
   - Basic tier accounts for over **56% of total active users** (1,314 subscribers), serving as the primary acquisition engine.
2. **User Retention & Churn Dynamics:**
   - **52.03%** of recorded subscriptions are currently active.
   - **33.98% of subscriptions expire** without immediate renewal, representing the largest drop-off opportunity compared to explicit cancellations (13.99%).
3. **Content & Engagement Performance:**
   - **Drama** and **Thriller** are BingePlay's flagship categories, driving the highest overall session volume and cumulative watch time.
   - Content completion rates are remarkably stable at **~60%** across all genres, demonstrating consistent content quality and pacing across the catalog.
4. **Platform & Viewing Behavior:**
   - **Mobile** is the dominant platform, accounting for >50% of overall sessions and watch minutes.
   - Peak engagement occurs on **Friday and Saturday**, while session duration remains fixed at an average of **30 minutes per session** regardless of device type.
   - High-value power users utilize **all 4 hardware platforms** (Mobile, TV, Laptop, Tablet) and generate upwards of 100+ hours of individual watch time.

Strategic Recommendations

- **Upsell Pipeline:** Launch targeted upgrade prompts to Basic plan subscribers during peak engagement hours (Friday/Saturday) offering trials for Premium or Family features.
- **Automated Retention Workflows:** Reduce the 34% expiration rate by implementing auto-renewal discounts, payment retry triggers, and automated win-back campaigns prior to subscription end dates.
- **Mobile-First UX Optimization:** Prioritize mobile app performance, fast playback loading, and cross-device "Continue Watching" sync to maximize engagement for power users.

- **Strategic Content Scheduling:** Align new flagship show releases and promotional pushes with Thursday evening or Friday drop windows to leverage weekend traffic spikes.
